SUMMARY

Full Stack Engineer with experience of building production-grade **MERN stack** applications. Developed a multi-vendor **eCommerce platform** featuring real-time **WebSocket notifications**, **Stripe payment integration**, and **role-based access control**. Proficient in **React/Redux** frontends, **RESTful API design**, **JWT authentication**, and **Agile workflows**, with a track record of delivering complete, end-to-end features independently.

EXPERIENCE

MERN Stack Developer

Aug '25 — Feb '26

InfinitySoftSolutionz

- Built scalable full-stack applications using the **MERN stack**, delivering features across buyer, seller, and admin roles.
- Designed **RESTful APIs** with **Node.js/Express.js** and implemented **JWT-based authentication** with role-based authorization.
- Integrated **Stripe** payment gateway and **Cloudinary** media storage for complete transaction and media management.
- Developed responsive React.js interfaces using **Redux Toolkit** and **Tailwind CSS**, focusing on reusable components and clean UI architecture.
- Implemented real-time features using **WebSockets** and improved application functionality through performance optimization and debugging.
- Collaborated in an Agile environment using Git/GitHub, Postman, and modern development practices to deliver production-ready features.

PROJECTS

Shopora – Multi-Vendor eCommerce Platform

[Live Demo](#) | [Case Study](#) | [Source Code](#)

- Built a full-stack **multi-vendor** platform supporting buyers, sellers, and admins with complete **role-based access control**.
- Integrated **Stripe** for end-to-end payment processing and real-time order notifications via **WebSockets**.
- Developed interactive seller dashboards for product management, order tracking, and revenue insights.

Tech Stack: React.js, Redux Toolkit, Node.js, Express.js, MongoDB, Tailwind CSS, Stripe, WebSockets

LMS – Learning Management System

[Live Demo](#) | [Case Study](#) | [Source Code](#)

- Built a full-stack learning management platform with **TypeScript** and **Next.js**, supporting distinct student, instructor, and admin roles.
- Implemented course creation, enrollment, and progress-tracking features with a fully responsive UI, including a **dark theme** mode.
- Designed and integrated **RESTful APIs** for real-time content, user, and course data management.

Tech Stack: Next.js, TypeScript, Node.js, Express.js, MongoDB, Tailwind CSS

SKILLS

Languages JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend React.js, Next.js, Redux Toolkit, Context API, Tailwind CSS, Responsive Design

Backend Node.js, Express.js, RESTful APIs, JWT Authentication, Google OAuth, WebSockets, Microservices

Databases MongoDB, Mongoose, Firebase

Cloud & DevOps Vercel, Netlify, Firebase Hosting, Cloudinary, Docker, AWS

Tools Git, GitHub, Postman, Stripe Integration, MVC Architecture, Agile

EDUCATION

BS in Software Engineering, Virtual University of Pakistan

'20 — '24
